

Smart Safety Cable Barrier

Resettable Magnetic Break Away Cable Connection

Electronic Pull Switch

Smart Safety Cable Barrier

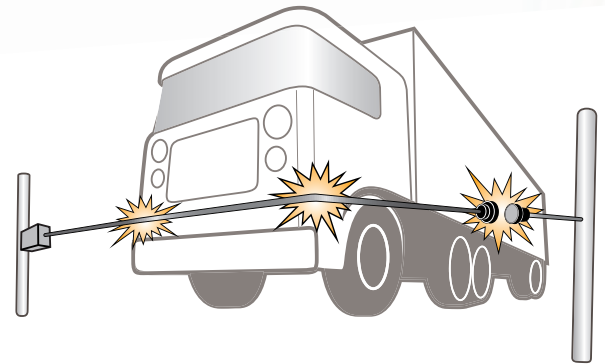

A wireless **Smart Safety Cable Barrier** is used to rope off designated dangerous or unsafe areas to vehicle or equipment travel.

A wireless electronic pull switch which can turn alert lights and sounds "ON" at a distance of 100m in a clear line of sight of receiver.

When the resettable Smart Safety Cable Barrier is tripped (by equipment or a vehicle) a signal is sent to the alarm system alerting that a restricted or dangerous area has been entered.

The Smart Safety Cable Barrier pull switch is triggered by tension on the cable barrier.

Barrier cable Does Not Break due to the easy, and quick resettable magnetic connection which reduces maintenance costs and safety concerns due to broken barriers.
